Gang after sending Everett a couple of the caps with the plastic and his efforts to keep the pins stable in a socket while reworking them. He came to the conclusion that he could not rework them at a reduced price by a group order. He says working with Leslie cans and fitting the caps in properly is not economically feasible with the soft base. However he will do singles at \$35.00 each plus \$5.00 if he has to get a

hard socket plus postage.

He tried,

Arden Allen asked:

"I would like to know is if anybody thinks WD-40 is \*evil\*.....!"

I dunno about intrinsic evil. Depends on what you use it for.  
But it sure smells evil.

There are people in this world that struggle with the difference  
between black and white. They shut down when others talk about  
shades of gray, or "it depends ..."

Hi Gang,

I have been asked by several if I have any more of the repro knobs.  
I need a commitment of close to 200 knobs to hold the original price of  
\$30.00 each plus mailing. I was forced to sell 20 that I was holding  
for myself, so I need about 180 request for new knobs.

I need serious replies so as to cover and protect all that are in need.

I still have R-391 knobs and locking pins, plus tags for all contracts.

Thanks,  
Hank

Subject: ADMINISTRIVIA: Changing Email Addresses  
Date: Sun, 17 Feb 2002 11:15:00 -0800 (PST)

Gang-

This periodic post is intended to help subscribers whose email address has changed, preventing posting or receipt of the list.

If you change ISP (InterNet Service Provider), simply send me an email advising the change, and I will do my best to implement the change quickly.

For those unfortunates, whose ISP has made a change without advising their customers of the potential impact of that change on subscribers to email lists like the boatanchors, where one must be a subscriber to post to the list, try to follow along...

Under some circumstances, the changes to your email address are "transparent" to you, but prevent posting. I get error notification for these kinds of problems, and I try to work them out. However, I may miss one, and on this end, the process is anything BUT automatic.

You have a bigger stick than I do. You and your ISP have the primary responsibility to repair the problems caused by the change at the ISP. I have zero leverage with your ISP, and you have great leverage.

Most ISP maintain a customer service department to help with problems like these. This should be your first line of support for email problems. I am happy to assist and consult, but try to understand that when your ISP makes a change to their email handler, and that change prevents you from posting to the boatanchors list, I can help, but resolving this problem is your responsibility, working with your ISP. I am but a volunteer, contributing my time to administer the list.

Thank you for your attention.

BEN these were a "gammer" transmitter brought out at end of war. Called a "barrage jammer" they were designed to impede enemy communications by being "placed" immediately in front of there lines or in some place i.e. trees, wall, power line where they were hard to detect. I have a TM on them and it was marked SECRET at the time. There were three transmitters covering a broad spectrum. Hope this helps?...Tony Grogan WA4MRR

Content-Transfer-Encoding: 7bit

Hi! This is for TRADE ONLY...have a hard to find HRO-50 "AC" coil, which covers  
the 15M ham band -- 21.0 - 21.5 MHz range. Good condition, couple of minor  
scratches on front, untested but very clean. No dial scales included!

I would like to TRADE this for YOUR HRO-50 "J" coil, covering 50-100 kHz  
longwave.

Do not want any coils from the OTHER HROs. The HRO-50 style has a grey front  
panel and ENGRAVED markings on the front -- not on little metal plates (HRO-60)  
and not with tuning charts (HRO-7 etc).

I know this is a long shot but sometimes Boatanchorites really come through!

Shipping extra unless noted otherwise.

National NC-88. Very clean. With Knight 100 kHz calibrator. Main dial needs restringing--looks straightforward. Original manual. Untested. \$75

Hallicrafters S-95 VHF receiver, 152-173MHz FM. Very handsome grey hammertone cabinet, overall 8-9 or better. Untested. \$25

Lafayette HE-61 6M VFO. Clean. With manual copy. Untested. \$20

Lafayette HE-61A 6M VFO. Clean. No manual. Untested. \$20

Ameco model PV VHF preamp, single 6CW4 Nuvistor. Auto jacks in/out. Dirty. \$10

Drake TV-100 LP filter, 100 watts. Heavily tarnished. W/ instruction sheet. \$10

Code practice oscillator. Solid-state (one transistor). Manufacturer unknown, looks military. Slant-front meter case, marked CO-5 on phenolic back panel. Built-in speaker. Terminal strip screw connections. 8 out of 10 cosmetically, works fine. \$15

Rider Sound-n-Sight code course on records, Advanced version (9-20 WPM). Three LPs, manual, in orig. box. Not sure it was ever used. Box is worn but records are in their original jackets with the cardboard separators between each record. I used one of these courses to learn CW in the '50s. \$15

Radio City 668 multi-tester, VTVM & measures capacitors 50mmfd-2000mfd. 7-8. No leads. With original manual. Meter bad. \$15

Knight 600A tube tester. Rough, about a 5 out of 10, good meter. Roll chart turns but binds. With separate updated roll chart, original assembly manual. Untested. \$20

Knight capacitor checker (go/no-go eye tube indicator). Cosmetically 8-9. Untested. With original manual. \$15

Eico model 1100 resistance substitution box, cosmetically 9 or better. Does NOT work, visual check shows several cracked resistors. Replace them and it's a nice unit. \$5

Crystals :

CR-23/U holders: 52.85000 mc, 50.27000 mc, 34.9000 mc, 10012.5 kc.

CR-1A holder: 8090 kc

FT-243 holders: 7733.3 kc., 8067 kc, 8358 kc, (2) 8323.333 kc

\$25 for all 10, shipping included.

Oil caps, \$3 each or \$15 for all-  
(2) Sprague 4 mfd. @ 600V  
(2) Aerovox 4 mfd. @ 600V

Cornell-Dubilier synchro capacitor, MK.1 Mod. 3 Type 3C, 10-10-10 mfd. 90V, delta connected, 1944, bolt terminals. \$5

Sylvania GB 13D lamp, NOS. \$5

Heathkit items--

Stick-on label. Metal, about 2.75 inches by 3/8th inch, HEATHKIT in silver capital letters on black background. Unused and unbent, paper backing intact. Looks like it's for kits of early to mid-1970s. \$5 including 1st-class postage in padded envelope.

Original manual for SB-600 communications speaker, ex. condition, \$8 including 1st Class shipping.

Logbook, unused, from '70s. Ex. condition. \$15 including shipping.

Free Heath stuff:

Info sheet for HM-15 reflected power meter/SWR bridge with schematic, specs.

Foldout pictorial from RX-1 (Mohawk) manual showing Figures 7, 8, and 9.

Assembly manual for HW-30 ("Two-er") Lunchbox. No cover, some pages are loose, missing pages 9-11.

Book, manuals, misc. paper materials--

Instruction book for AN/FRC-7A and AN/FRC/17A, VG-E condition, covers and edges slightly faded and marked by owner in several places. \$10

ARRL pubs-

Radio Amateur's License Manual, four copies, \$3 each or all four for \$10-1958, G condition; 1959, F-G condition; 1962, G condition; 1963, G condition

Operating an Amateur Radio Station, four copies, \$2 each or all four for \$7-1959, very clean but was folded at some point (lies flat anyway); 1966, looks new; 1968, two copies, one w/ smudge on cover

ARRL Antenna Book, 1955, VG condition, \$6

73, Avery W3AVE in Potomac, Md.

Subject: How to clean up tube shields?

To: Old Tube Radios <boatanchors@theporch.com>

MIME-Version: 1.0

Content-Type: text/plain; charset=us-ascii

I have two types of tube shields in several of the radios I'm rehabing. One type

is aluminum and  
cleans up fine with aluminum polish. The other type are badly corroded and don't  
respond to  
aluminum polish or anything else I've tried. What's the magic chemical and what  
are they made out  
of?

Thanks,  
Michael

Good luck Andy, I have an HRO-60. I got it with one of the HF coils.  
Took like years to locate a complete HF set. Russ

Greetings fellow WD-40 aficionados.

Does anyone have a schematic for an Auto-Mate K 5/50 electronics keyer.(U.S.  
Manufactured)  
Its has four 5963s(12AU7's) and two VRs. I have looked on the usual sites  
and  
no luck.

Thank you and may the force(WD-40) be with you.
